I express my support for the 13A variations to ensure that North County's communities have adequate representation. This is reflective in how District 5 is drawn in the North County area of the 13A variations. I urge the Commission to move forward with a 13A map as a final choice.

Map 14 would have a single district that includes 85% of all unincorporated areas in a single district that is a few miles shy of 3,200 square miles. That is unacceptable. Districts should be compact and equitable. Map 14 does not accomplish that goal and would split the North County Latinx population.

- The Map 13A variations protect the BIPOC/Latinx communities of interest by uniting Oceanside, San Marcos, Vista, Escondido, the unincorporated communities of Fallbrook, Valley Center, Rainbow, Bonsall, and the tribal lands.
- The Map 13A variations respect Fallbrook's geographical community of interest by including it with the 76 and 78 corridors.
- North County communities, including Fallbrook, have cooperative agreements with public safety organizations including law enforcement and fire, a college district, and multiple health districts.
- Map 14 and its variations violate Fallbrook's 48% Latinx protected class population by diluting its voice and separating it from the rest of its BIPOC community of interest that includes Oceanside, San Marcos, Vista, and Escondido.
