My name is Sabah Humana, and I live in El cajon. I want to thank you for your hard work, but I want to bring your attention to one very important and valuable thing about Chaldean community. We the Chaldean are very religious, social, hard workers, and open to others, but we had suffered from persecution due to our religion and faithfulness, and what you are doing now by separating Elcajon from other Chaldean communities such as Rancho San Diego, Spring valley, and hamule is harmful to them as persecution because Chaldean are a minority that are trying to build themselves aging to keep their faith, traditions, and culture, so please keep Elcajon with other Chaldean communities such as San Diego and Spring valley.
