As a longtime resident of Elfin Forest (I was brought home from the hospital here 34 years ago). I consider myself part of this amazing rural community that stretches from San Marcos to Escondido. We're the last of its kind, a rural community that is united in our values of conservation, independence, large animal keeping and maintaining a rural environment. From Elfin Forest to Harmony Grove to Eden Valley, we socialize together, fight battles together and help each other out in a time of need. We're represented by one Town Council and one Planning Group. We've fought fires together for decades, manned our own volunteer fire station and have advocated for preserving this small community.

I strongly oppose our community being split apart at the suggestion of people who have no connection or understanding of this beautiful community.

I also strongly oppose being lumped into an east county district. We have no association with east county. We have been associated with the city of San Marcos, Escondido, Olivenhain and Rancho Santa Fe for decades and our links are longstanding. Whether we are put in a coastal district or a north county district, it is superior to being placed in East County.

Thank you for your attention and consideration to this matter.
