Subject: [External] Please don't split Harmony Grove from Elfin Forest
Date: Wednesday, December 8, 2021 10:33:37 AM

Thank you so much to all the commissioners for making this process so transparent and for listening to our community of interest. Elfin Forest, Harmony Grove and Eden Valley are a united rural community and you have enabled us to continue having one voice with our supervisors, as an unincorporated community that is constantly working to preserve its identity and autonomy. And thank you for not putting us into East County with whom we have no linkage. We encourage you to approve the Final Draft Map without altering our community any further.

It is indeed gratifying to have elected officials who listen to their constituents, and as we near the beginning of a new year, we wish you a healthy and safe 2022.
