In reviewing the most current map from the Dec 2 meeting (posted as date 12/2-3/21), it appears that it accomplishes my main desire which is to place my neighborhood of nearly 25 years, Rancho Penasquitos, with the coastal County Board of Supervisors office we have been with for years, which supports the created working relationships, policy collaborations, coalitions and endeavors that unify us in this subregional area. Thank you for fine-tuning the map to keep us with the coastal areas.
