I favor map 13a V1-6

I believe the current mapping proposed by the Redistricting Commission is not adequate to account for the three distinct agricultural areas located within San Diego County and really need to be updated to ensure these areas are properly represented. San Diego County's three agricultural areas if I am not mistaken are as follows:

North Inland Agricultural area: The North Inland agricultural area includes the communities of: Escondido, San Pasqual Valley, Valley Center, Rincon, Bonsall, Fallbrook, Pala, Pauma Valley, Rainbow, and Temecula/Temecula Valley Wine Country.

East County Agricultural area: The East County agricultural area includes the following communities of: Poway, Ramona, SD Country Estates, Julian, Santee, Winter Gardens, El Cajon, Jamul, Alpine, Descanso, Pine Valley and everything east/southeast of there to the county borders.

North Coastal Agricultural area: The North Coastal agricultural area includes the other communities of: Carlsbad, Oceanside, Vista, San Marcos, and Camp Pendleton.

Additional revisions to the draft maps are necessary to ensure the process is fair and equitable to rural and agricultural communities. It is imperative the revised maps do not split unincorporated communities, agricultural communities or special districts, school districts and water districts covering rural areas. Agricultural communities are historically underrepresented in local decision making and the agricultural areas require and deserve adequate representation in government decision making.

Again, I favor Map 13a V1-6 it seems this map makes more sense for the aforementioned areas to ensure proper representation for them.

Thank you for your time invested in the project and in the end may all parties receive proper representation.

Thanks again
