Hello my Name ruwaid hanko. I live in El Cajon for 17 years. I recently heard you want to take el cajon out of east county. This is a big mistake for the chaldean community. El cajon belongs with east county. We have no community interest with east san diego. They are too far and different community. El cajon os the heart of our people. All of my cousins and families live in other neighboring cities in east county. Please dont distroy my community by separating my families. Keep el cajon in east county please thank you
