eComment :

Hi, my name is Sanaa and I have been a member of the Chaldean community since 2013. I thank you for your time and consideration but I wanted to take time to share my view of the separation of East County. As a Chaldean, I don't want Easy County to be separated nor does the majority of our community if not all. We do not want East County separated as this will not serve us anything good and it's an unnecessary change. The Chaldean community here is in East County which is why this effects us so much. We want to voice our opinions and know that we are heard and respected as United States Citizens!!!
