Hello,

Thank you for the work you do. I'm writing in support of Encinitas remaining a part of the coastal communities south to Point Loma. There are a multitude of reasons to keep the districts as they are; traffic I5 concerns, education and how our children hang out together and our schools feed into SDuHD, environmental concerns in regards to sea bluff erosion, racial justice work and how there are groups united in these issues (Solana Beach 4 Equality, Encinitas 4 Equality...). Encinitas works closely together as a community with Solana Beach & Del Mar, specifically, on so many levels that it just doesn't make sense to make any changes.

Please consider these community ties that run deep in so many vital aspects of our daily lives- environmental, socioeconomic justice, traffic, friendships, schools, community....to name a few!

Kindly,
Susana
