Hello,

My name is Lucero Sanchez and I am the community policy coordinator for San Diego Coastkeeper. We ask that the Independent Redistricting Commission consider a majority coastal district for the County of San Diego. San Diego coastal communities will face similar challenges such as sea-level rise, low water quality, erosion, and flooding. These communities need a representative that will champion their unique needs, culture, and interests. We greatly appreciate the opportunity to weigh in on redistricting and are happy to help in any way we can. Thank you.
