My name is Judah Coker and I am a resident of Oceanside. Oceanside is a very culturally diverse city, both ethnically and socioeconomically, and has a connection in this way with other Northern communities like Vista and Escondido. Additionally, Oceanside is a coastal city and its residents are united in this way, as we face similar environmental challenges such as coastal erosion that also impact other North County coastal regions. However, For years, County politicians mashed together coastal North County with rural East County into a district that didn't truly serve either community's needs. This is made clear by the fact that what matters most in Carlsbad and Vista does not impact Borrego Valley residents the same. This independent commission can fix that by drawing district lines that finally serve the people, not the politicians. We ask that you do this by respecting the coast and East county as separate regions with different needs so that our distinct voices are not drowned out when it comes to prioritizing the issues that we are facing. Thank you. ^[1]_{SEP}
