Dear Commissioners,

I have been a resident of North San Diego for over 40 years, including Escondido, Encinitas and my current residence in Carlsbad. I have lived in Carlsbad for 26 years.

I believe that the including all cities in the I-78 corridor in a reconfigured District 5 supervisorial district would be of great benefit to the cities, communities and citizens who live within such a district.

Adding Escondido to District 5 will benefit everyone in the corridor, especially Senior and LatinX communities with their unification into a single district. The interests of these two large communities are unifying and will make it easier to make the desires of these communities known in the county. The current configuration of districts divides these communities to their detriment.

Thank you,  
William Fowler
