eComment :

My name is Lucia. I am a resident of Chula Vista in the South County. My community consists of Mexican-American, Southeast Asian and Pacific Islanders, and Caucasian. I would like to see more outreach efforts to build communication channels between city and county officials with community groups interested in the future of South County. From Barrio to National City to Chula Vista we are united in demographics and culture. Coronado and Point Loma do not share similar culture and upbringing. Please consider these points when redistricting our counties.
