As a four decades long resident of Point Loma and Ocean Beach, I have watched the marine and natural environment deteriorate alarmingly. The demands of our sensitive coastal areas are lost among issues of inland areas that have no connection to the coast. Our marine and coastal environments are economic engines that San Diego needs to thrive. Tourism is the third leg of our local economy. If we do not have a coastal focus geographically and politically, we will destroy ourselves economically. Please create a district that is purely coastal to preserve this economic powerhouse.
