eComment :

To the honorable County Commissioners,

My name is Janneth Torres, I am a resident of the City of Escondido who grew up in the City of San Marcos. I am in support of a North County district that represents my community and ensures we are not split. Having grown up in North County, I am familiar with the common attributes that connect our region along the 78 corridor from Escondido to Oceanside.

As a child who got to see the sprinter public transportation come to fruition, I have seen how families continued to rely on public transportation and the jobs along the 78 corridor. We continue to see a growing population of Latino and immigrant families who call this area their home. As a student at Cal State San Marcos, many of my classmates came from these same neighborhoods. Those classmates are now part of the local workforce and serve in our education, finance and healthcare systems across North County.

Many in our community are also connected by our health care systems like True Care, Vista Community Clinic, Neighborhood Healthcare Tri-City Hospital and Palomar Hospital.

Please ensure that Escondido is kept together and part of our north county communities.

Thank you.
