eComment :

As a resident of Encinitas for over a decade, I strongly feel that the coastal communities should be in the same district. From an environmental standpoint we share the same issues such as bluff erosion, run off, and many other concerns. Our leaders should represent the same types of communities that share the same environmental concerns. We should continue to be connected to the cities around us so that we can continue to work together to protect our natural habitat. Equally I believe attention needs to be brought to the importance of geographic realignment of our Board of Supervisor District being close to our Congressional, State Senate and State Assembly districts boundaries. I hope that you take that into consideration. Thank you.
