Citizens within 10 miles of the proposed North County Construction Recycling Plant alongside West side of I-15 one mile North of Escondido City Limits request you make that area and 10 miles around it part of Terra Lawson-Remmer's district please. We need a strong Environment voice to represent us to kill this proposal once and for all.....again! Jim Desmond and the Planning Commission if anyone cares to take a look are nothing but pro business, pro business and the public be damned. Research the founder of the company's family and you will see the guilty verdicts entered and Multi Million dollars fines were paid for extraordinary fraud and horrific Environmental damage done to 6 cities in Southern California as waste was dumped down sewers for years from Diamond Inc in the past few years. And they have the audacity to request self monitoring. Is anyone paying attention?
