I Chair the Boulevard Community Planning Group in rural East County, and have been elected annually to do so since the early 1990's. If the boundaries of our current District 2 are changed, please DO NOT split up any rural community planning areas or sub regions into two different Supervisorial districts. Our congressional district splits our Boulevard community in two which makes it very difficult for us. It is hard enough as it is to get the attention of one County Supervisor, never mind getting the attention of two. Your consideration of this request will be appreciated. Thank you.
