Dear Commissioners, As you deliberate about the new Supervisorial districts, please take into consideration my community of Escondido. I live in the southern unincorporated area of Escondido. I heavily identify and am most active in Escondido as it is the city with the most influence over where I live, work, and recreate. For the past 10 years we have been divided between two districts which has not served us well. We are a '78' community and the decisions made about transportation, climate action, and conservation are best served if the interests of the cities along the 78 corridor are connected to include all or most of Escondido. There are many linkages of my city to the rest of the corridor communities. These include medical facilities and districts, the Sprinter, the Escondido Creek watershed, the planning area for the Multiple Habitat Conservation Plan, significant agriculture and nursery operations, culture, and demographics. We need a District specific to North County which includes and integrates the major cities in the North County in one representative district. Thank you for considering my comments
