Redistricting data is based on 2020, Covid based survey and not all communities were assessed, and if you remember there was an extension, and then Trump (A*****) made the continued attempt at to collect data to a dead halt. Because of Covid people were not able to do appropriate outreach work to truly assess communities. All use of this 2020 data in my book is not valid and enough information to base redistricting on. Not only Covid, but illegal entrants to our county were not assessed as part of this, as they had been in past years. GET REAL!
