Dear Commissioners,

I wanted to share some additional and relevant information I came upon in reviewing the [Draft EIR for the SANDAG Regional Plan](#). The attached maps show clearly the current and future relationships along the 78 corridor regarding population density, job centers, transportation mobility hub planning. These are all areas of purview by the County. I wanted you to see these since I think it speaks to the need for this area to have consistent representation at the County level. As I mentioned in my testimony at the hearing in Escondido, this corridor is developing as an urban corridor and will need the focus of the County to ensure it grows in a manner that represents communities, protects the climate, grows a sustainable economy.

I hope you find these of interest.

Thanks

Laura Hunter
