My name is Cristian Vera and I am a resident of Fallbrook. For years, County politicians mashed together coastal North County with rural East County into a district that didn't truly serve either community's needs. For example, the cities closer to the coast have different transportation needs compared to us, like Coaster, the LOSSAN railway, and widening I-5. Public transportation is not accessible in rural areas and the roads in the backcountry are unsafe and need more attention. We also have different water needs and share water districts with the Fallbrook Public Utility District and Rainbow Municipal Water - which are focused on protecting our water supply and meeting the water needs of homeowners, ranchers and farmers alike. While areas along the 78 face issues of growth, expanding public transportation and increasing urbanization, our rural, unincorporated communities clearly have much different challenges. This independent commission can fix that by drawing district lines that truly serve the people, not the politicians. Please, keep Fallbrook, Bonsall, and other unincorporated areas of North County with rural East County and empower our communities to finally have our needs be met.
