On behalf of the community of Fallbrook, of which I have been a long-time resident of 22 years, it is extremely important that the entirety of Fallbrook and its surrounding areas remain intact in one district during the redistricting process.

As one of the few remaining unincorporated areas of San Diego County, it would be detrimental to split the community into multiple districts. Representation at the County level has been and remains a goal of the Fallbrook Chamber of Commerce and the community at large. The support and oversight of one supervisor is imperative for the future of Fallbrook. I urge you to keep Fallbrook within one district- for its survival, growth, and vitality.
