COUNTY OF SAN DIEGO
INDEPENDENT REDISTRICTING COMMISSION
COMMUNITY BUILDER TOOL

COMMUNITY BUILDER TOOL PURPOSE

The County of San Diego Independent Redistricting Commission (IRC) has launched the **beta version** of the "Community Builder" tool. This tool will facilitate the documentation of Communities of Interest for consideration by the IRC when drawing the new supervisorial districts. You can access it here: https://www.sandiegocounty.gov/content/sdc/redistricting/community-builder.html.

This beta launch is intended to provide the IRC and interested parties an opportunity to review the Community Builder tool and provide feedback on Communities of Interest. **Feedback can be provided to the IRC at the July 29th meeting and via email to** redistricting@sdcounty.ca.gov. Please note that while we welcome comments and suggestions regarding the tool's core functionality, all changes will be vetted against the IRC's core mission, technical feasibility, implementation timeline and budgetary constraints.
