## **County of San Diego Disaster**

### **Livestock/Agricultural Pass Application**

**Access will not be permitted if conditions are unsafe. The Incident Commander/Unified Command and coordinating emergency agencies will determine when conditions within an evacuation zone are safe enough to allow Ag Pass users access. Since conditions can quickly change, the final decision on access will be determined by the frontline law enforcement and fire personnel at each roadblock and within the evacuated area.**

**Purpose:** The County of San Diego has supported the development of a systemic program to provide options to commercial livestock, equine, and agricultural operators to access restricted areas following a natural disaster to provide care for livestock and maintain crops. To that end, the County of San Diego has established a program through the issuance of a Disaster Livestock/Agricultural Pass, which may permit qualifying commercial livestock and agriculture operators to gain entrance to evacuation zones, or other restricted areas, to provide feed, water, medical treatment, and other care to livestock and horses.
