Trusted by thousands of fire and law enforcement agencies for over 40 years, Knox Rapid Access Solutions have provided first responders with immediate access into secure buildings, campuses, residences and commercial properties when it matters most. Removing barriers to entry reduces injuries to responders and minimizes property damage. That's the power of the Knox rapid access system.

San Diego County Fire Protection District KnoxBox Model 3200 Purchase Guide

Step 7: This is where you will have some options to choose with your KnoxBox. We prefer black KnoxBoxes but any of the three colors is acceptable. You may also buy either surface mounted (the box bolts against the wall and sticks out a bit) or recessed if you have the ability to mount it within the wall. If you would like the KnoxBox to be electronically monitored by the Fire Alarm / Panel or Security system, you may select one of those options as well but it is not required.

The screenshot shows the Knox website product page for the KnoxBox Model 3200. The page includes a navigation bar with 'INDUSTRIES', 'PRODUCTS', 'SUPPORT', and 'HOW TO BUY'. A search bar is present. The product title is 'Model 3261 - KnoxBox 3200, Surface Mount, Hinged Door, Black'. The product image shows a black, rectangular KnoxBox with a hinged door. The product details include: 'Commercial KnoxBoxes', 'KnoxBox® 3200', 'Standard Capacity Model: 3261', 'MSRP: \$660', and 'Price: \$487'. There are three sections for configuration: 1. Color (Aluminum, Black, Dark Bronze), 2. Mount Type (Recessed Mount, Surface Mount), and 3. Tamper Switch Type (None, Fire Alarm / Panel, Security Alarm). An 'Add to Cart' button is visible. A note about 'Installation Address' states that it is where the product will be installed and that shipping addresses should not be entered.
