Approving the Advisory Board Sunset Review Report for 2022

Board of Supervisors Policy A-74, “Citizens Participation in County Boards, Commissions, and Committees,” requires a sunset of advisory committees. The Board of Supervisors recently adopted a significant update to the Board Policy and an amendment includes an enhanced Sunset Review assessment. All County Advisory Boards are supposed to respond to a baseline assessment and provide responses to the Clerk of the Board of Supervisors by October 14, 2022.

Recommendation: Approve the draft responses and authorize County Fire staff to send feedback on behalf of the Fire Advisory Board.

Establishing Additional Heli-Hydrants and HeloPods—Pending Board of Supervisors action to support fire suppression

On October 5, 2021, the Board of Supervisors (Board) directed a feasibility study to identify potential locations, partnerships, cost analysis, and strategy for the implementation of Heli-Hydrant technology. On January 25, 2022, County Fire returned to the Board with an update on the general locations within the unincorporated area that would benefit from an additional water source based on criteria that includes helicopter travel times and wildfire risk assessments. Strategically placed Heli-Hydrants can help firefighting helicopters refill with water more quickly and reduce the travel time to refill locations, allowing more frequent water drops in areas that lack water sources.

County Fire has developed an ongoing implementation strategy that utilizes two types of hydrants and interagency collaboration. The type of hydrant utilized is based on several factors, including cost and available water source. In general, Heli-Hydrants are installed as stationary water tanks connected to a municipal water source and HeloPods are portable, tactical helicopter dip sources that can hold approximately 5,000 gallons of water. This fall, County Fire will establish two HeloPods in McCain Valley and Rainbow Fire Center and partner with the San Marcos Fire Department and the Vallecitos Water District, contributing $50,000 for the installation of a Heli-Hydrant site in Santa Fe Hills, San Marcos.

Recommendation: Receive an update on establishing additional Heli-Hydrants and HeloPods in San Diego County and vote in support of proposed recommendations to establish additional Heli-Hydrants and HeloPods in San Diego County and provide authorization to procure additional hydrants and establish agreements for future locations (included for consideration in the Board Letter scheduled for the September 27, 2022 Board of Supervisors/Directors meeting).

Mandated Fire Inspection Reporting for Fiscal Year 2021-22—Pending Board of Directors action to receive a report

The State code requires the San Diego Fire Protection District to perform annual inspections on all buildings used as a school, apartment complexes, group care facilities, residential care facilities, commercial spaces, office complexes, jails, law enforcement stations, lodging units, and day care facilities. There are 189 of these occupancies within San Diego County and provide authorization to procure additional hydrants and establish agreements for future locations (included for consideration in the Board Letter scheduled for the September 27, 2022 Board of Supervisors/Directors meeting).

Recommendation: Receive this report and vote in support of the findings.
ADVISORY BOARD SUNSET REVIEW REPORT 2022

On May 24, 2022 (10), the Board of Supervisors approved a substantial revision of Board Policy A-74. The amendment includes an enhanced Sunset Review assessment. Please complete the survey and submit your report to the Clerk of the Board by October 14, 2022.
