

The County has invested more than **\$460 million** since the 2003 wildfires.

San Diego's wildland fire response capacity is now unrivaled, with more locally-stationed resources to bring to bear on a wildfire than any other region in the nation.

County and CAL FIRE San Diego resources at the ready:

<p>15</p> <p>County fire stations staffed with career firefighters.</p>	<p>32</p> <p>CAL FIRE and US Forest Service stations.</p>	<p>3</p> <p>County Fire helicopters, two CAL FIRE air tankers and five additional locally funded aircraft.</p>	<p>Unique County agreements with the Marines and Navy allow the region to request up to 30 additional aircraft.</p>	<p>Night-flying aircraft capabilities around the region.</p>

Altogether, up to 40 aircraft and 50 engines in the region could be requested to provide **OFFENSE** against wildland fires.

Do your part to provide the **DEFENSE** against wildfires, by:

- Knowing your neighborhood's wildfire risk.
- Clearing 100 feet of defensible space around your home.
- Using fire resistant landscaping.
- Creating a family evacuation plan and being prepared to evacuate within 15 minutes.
- Registering for Alert San Diego.
