

County of San Diego

Climate Action Plan Update

The County is committed to creating a Climate Action Plan (CAP) that serves the community and our mission to protect the public's health and safety, sustain the environment, and improve the quality of life for our residents.

Join Us

at our **Energy, Water, and Waste Emissions Reduction Sectors Measure Development** virtual public workshop!

July 28, 2021 6:00 PM

This meeting will provide an overview of CAP project components and will act as a foundation for developing vision statements of an equitable, net-zero carbon emissions future as it relates to energy, water, and waste emissions reduction sectors. Input will be solicited through a series of interactive poll questions and a discussion forum. Feedback will be used to inform the preparation of the vision statements.

What does the CAP do?

Within five sectors of...

...the CAP reduces greenhouse gas (GHG) emissions by promoting alternative transportation, creating green jobs, improving public health, diverting waste from landfills, conserving open space, and more.
