Zoom Meeting Controls - Desktop

The image shows a Zoom desktop client interface. In the center, a large black rectangle contains the text "Use Q&A window to send comments/questions" in white. Two red arrows originate from this text: one points down to the "Q&A" icon in the bottom toolbar, and the other points to the "Question and Answer" window on the right. The "Question and Answer" window is a white box with a teal header. It contains the text "Send questions to everyone or choose your recipient here" in bold black font. Below this is a text input field with the placeholder "Type your question here...". The bottom toolbar of the Zoom client is visible, showing icons for Mute, Chat, Raise Hand, and Q&A. A "Leave" button is in the bottom right corner.

County's Climate Planning Toolbox

Why a Climate Action Plan?

- The County's 2011 General Plan recognized the relationship between local greenhouse gas (GHG) emissions and climate change
- The General Plan EIR contained mitigation strategies consistent with AB 32-Global Warming Solutions Act
- The CAP mitigates emissions within the unincorporated areas of the County and County-owned facilities 
- The County prepared 2012 CAP and 2018 CAP in prior iterations

Board Direction

- Legally enforceable
- No purchase of carbon offsets to meet emission reduction targets
- Updated data and modeling
- Emphasizes environmental justice and equity
- Shaped by community input
- Exceeds Senate Bill 32 greenhouse gas emissions reductions
- Meets net zero carbon emissions by 2035-2045
- Receive input and direction from the Environmental Advisory Committee
