# CAP Update measure development

**Help us create a vision:  
Energy**

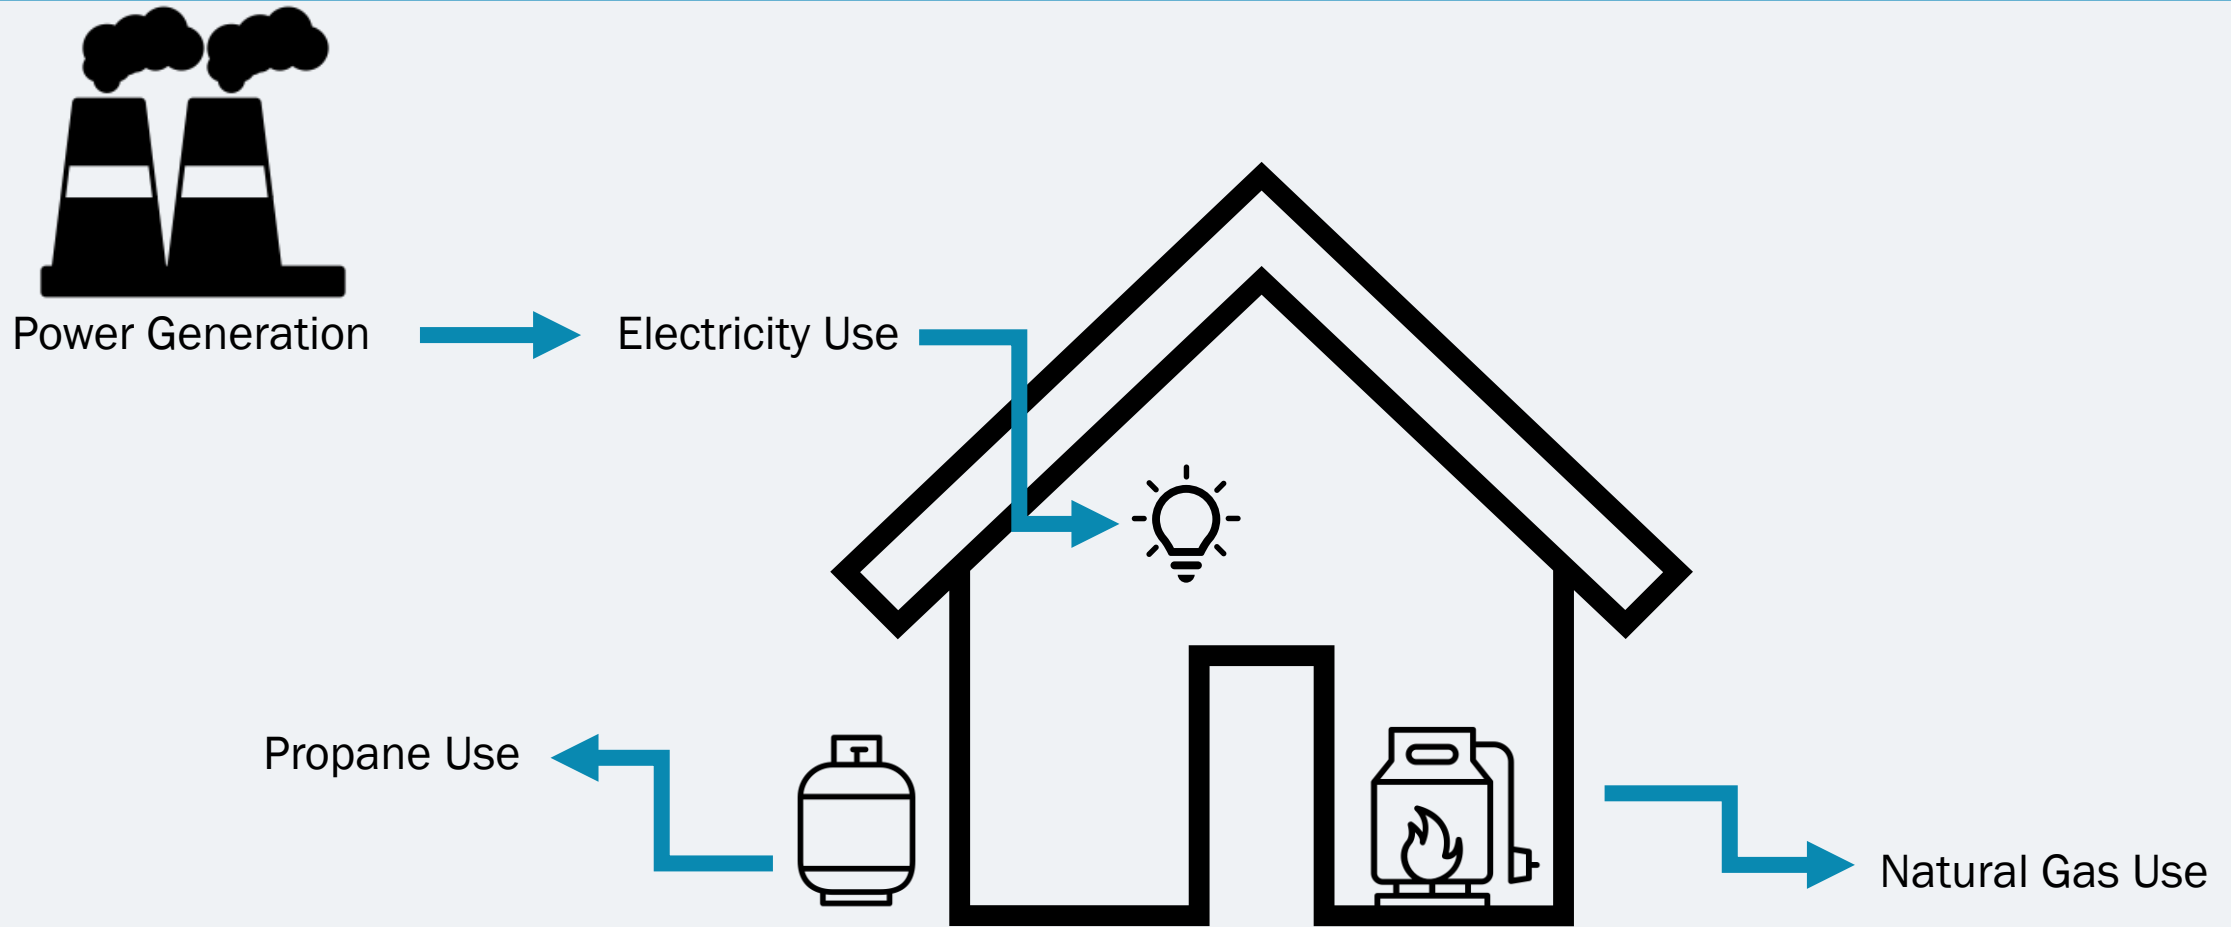

---

# Understanding energy emissions

Breakdown of emissions from electricity use in the energy sector (2014)

# Where energy emissions come from

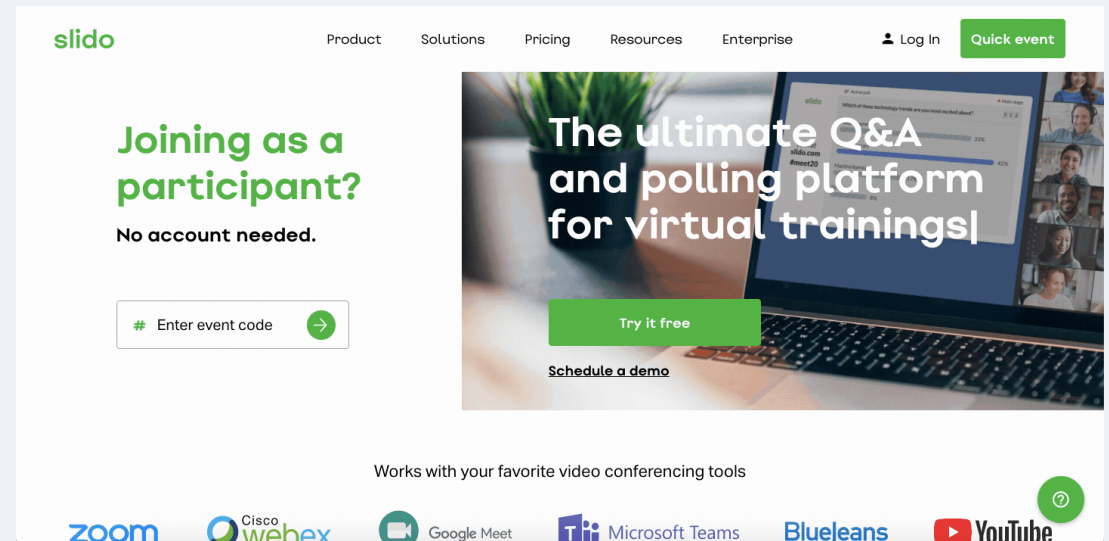

# Interactive polls using Slido

To Participate:

- Scan QR Code

OR:

1. Open slido.com in your browser
2. Type in the event code **999 521** (to the Enter event code box)
3. Wait to be re-directed to the event

slido

What should be considered for the energy sector to achieve a net-zero emissions future? / ¿Qué se debe considerar para que el sector de la energía logre un futuro de cero emisiones netas?

 Start presenting to display the poll results on this slide.

slido

What should NOT be considered for the energy sector? / ¿Qué  
NO se debe considerar para el sector de la energía?

 Start presenting to display the poll results on this slide.

## Equity - Energy

How can equity be considered for the energy sector, while still achieving net-zero emissions? What else should be considered related to equity?

 Start presenting to display the poll results on this slide.

slido

Is there anything else that should be considered for the energy sector? / ¿Hay algo más que deba considerarse para el sector de la energía?

 Start presenting to display the poll results on this slide.

**Help us create a vision:  
Water/Wastewater**

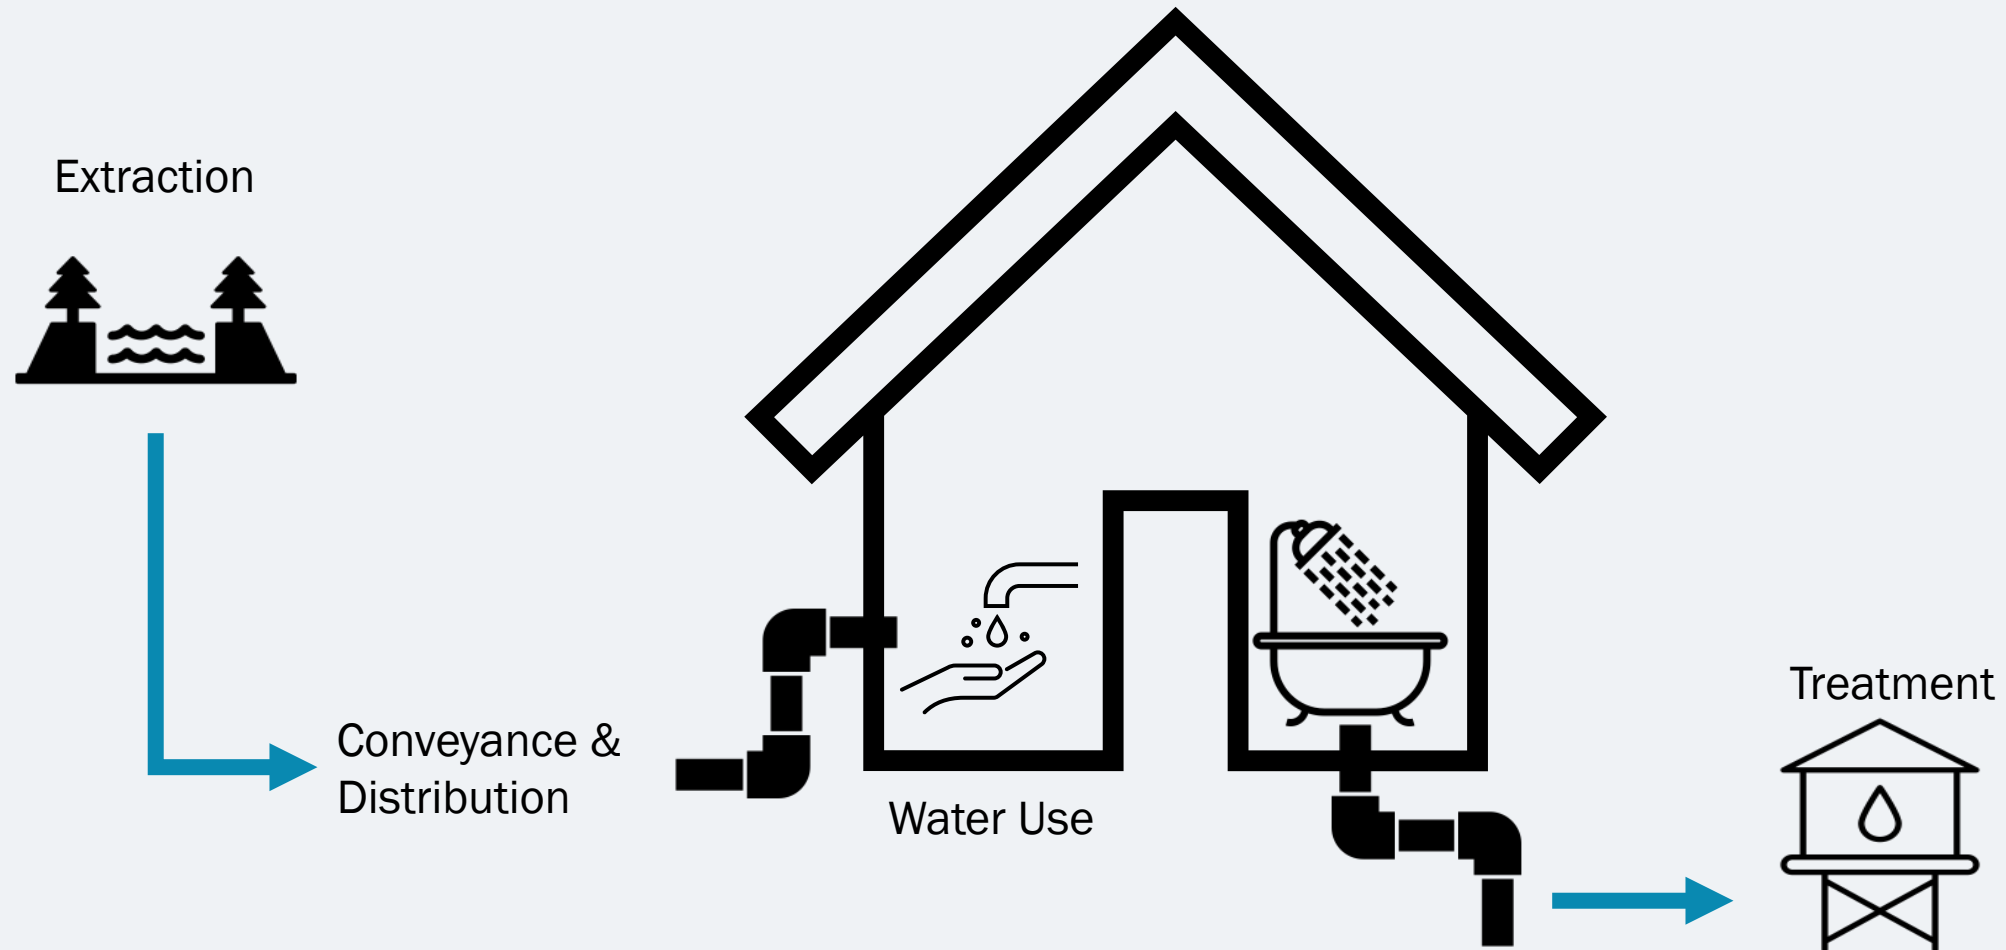

---

# Understanding water/wastewater emissions

Breakdown of emissions from the water sector (2014)

# Where water/wastewater emissions come from

slido

What should be considered for the water and wastewater sector to achieve a net-zero emissions future? / ¿Qué se debe considerar para que el sector del agua y las aguas residuales logre un futuro de cero emisiones netas?

 Start presenting to display the poll results on this slide.

slido

What should NOT be considered for the water and wastewater sector? / ¿Qué NO se debe considerar para el sector del agua y las aguas residuales?

 Start presenting to display the poll results on this slide.

## Equity - Water/Wastewater

How can equity be considered for the water and wastewater sector, while still achieving net-zero emissions? What else should be considered related to equity?

 Start presenting to display the poll results on this slide.

slido

Is there anything else that should be considered for the water and wastewater sector? / ¿Hay algo más que deba considerarse para el sector del agua y las aguas residuales?

 Start presenting to display the poll results on this slide.

**Help us create a vision:  
Solid Waste**

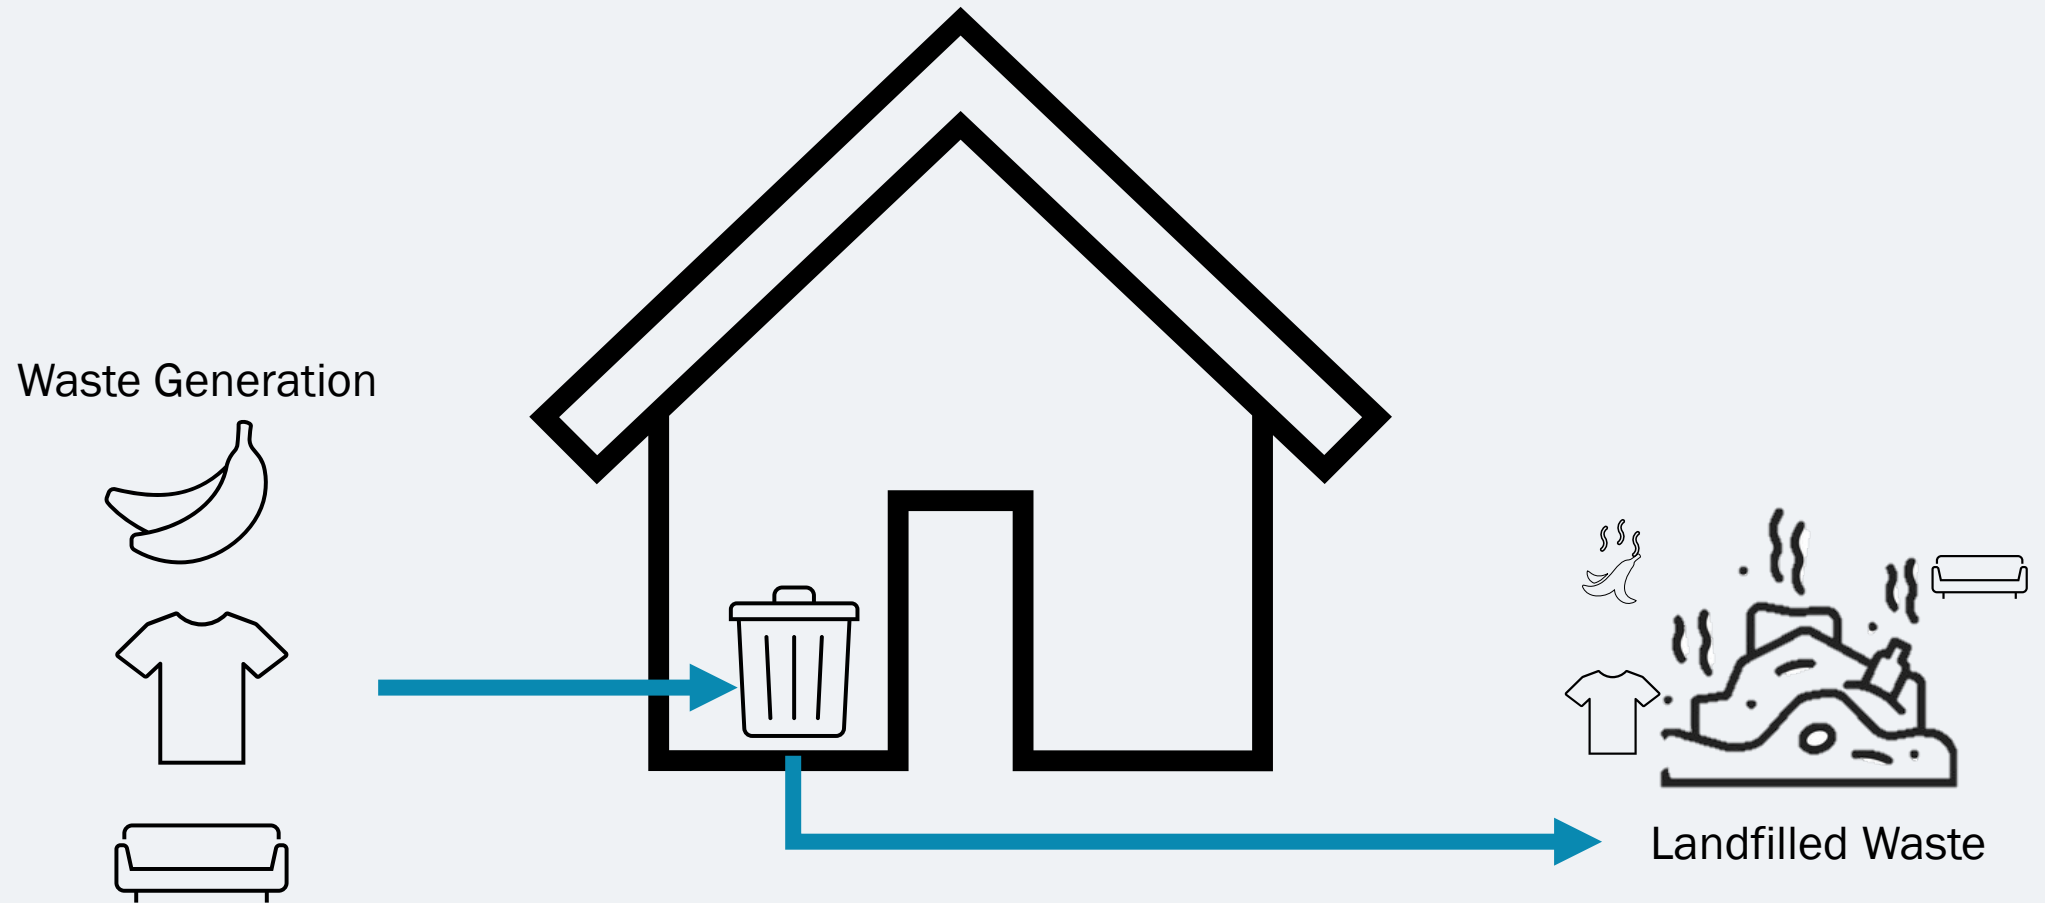

---

# Understanding solid waste emissions

Breakdown of emissions from the solid waste sector (2014)

# Where solid waste emissions come from

slido

Is there anything else that should be considered for the solid waste sector? / ¿Hay algo más que deba considerarse para el sector de residuos sólidos?

 Start presenting to display the poll results on this slide.

slido

What should NOT be considered for the solid waste sector? /  
¿Qué NO se debe considerar para el sector de los residuos  
sólidos?

 Start presenting to display the poll results on this slide.

## Equity - Solid Waste

How can equity be considered for the solid waste sector, while still achieving net-zero emissions? What else should be considered related to equity?

 Start presenting to display the poll results on this slide.

slido

Is there anything else that should be considered for the solid waste sector? / ¿Hay algo más que deba considerarse para el sector de los residuos sólidos?
