Missed Connections

The County is working to improve access to broadband in the unincorporated area. See what surveyed residents had to say about their connections and explore our plan to close the gap.

106,000

Number of residents *without* broadband access (based on census data)

92%

of those surveyed are without broadband citing *availability*, *reliability* **or** *affordability*.

It breaks down like this...

19%

say internet is *too expensive*

15%

say internet speeds are *too slow*

58%

say internet access is *not available* in their community
